About Me

Originally entering the game creation world as an **artist**, through seeing the need for **technical skills** and through **solo development**, I have become a **generalist** across **art** and **engine work**. I have a strong understanding of the entire pipeline, from **ideas** and **concept art** to **shipping**.

Experience

GAME DESIGNER AND 2D/3D ARTIST

Chic

2025

- Brainstormed on a team to create a simple, playful **game concept** with a strong theme.
- Created a simple, playful **player model** that is **rigged** and **animated**, all while staying under **256 triangles**.
- Built **models** that stayed within a style while staying under 256 triangles.
- Created 2D **billboard assets**.
- Made a 2D **menu**, intro **animation**, and **UI assets**.
- Met tight **deadlines** under pressure.
- Managed **scope**.

GAME DESIGNER AND SOLO DEVELOPER

General Whiskers: Armored avenger

2024

- Designed a concept based off set inspiration.
- Built a custom camera system for top down, level specific camera positions.
- Used Unreal Engine 5 Blueprints to create a custom combat system.
- Built a dialogue system to handle events and progress tracking.
- Completed goals and shipped on itch.io
- Tracked progress on Jira
